

LIVE DRAWING

Engage your audience in language everyone understands - drawing!
Illustrating the concepts can help bring your message to life.

I visualise thoughts and ideas then synthesise into an illustrated take-away that's easy to digest.

Visual scribing (also known as graphic recording/facilitation) is where I listen, synthesise, paraphrase and draw - all at the same time. I hand draw onto my iPad in real time, and project my work onto screens or share my screen during video calls.

Let's draw attention to your message and make it memorable.

Illustrated e-book example from a series of in-person group workshops.

All prices are in NZD and are exclusive of GST.

THE WORKSHOP: FROM \$1500NZD

- Half day of live drawing (up to 4hrs)
- Includes a collection of A3 sized hand-drawn illustrations synthesised live from your content on the day. Drawings use a mix of text, icons and bespoke illustrations
- Includes your logo and brand specific colours
- Full colour, 300dpi and CMYK formatted for print.
- Receive a digital e-book of all the illustrations collated, complete with illustrated cover page
- Each drawing is defined per speaker or topic (topic can have several speakers)
- Final illustrations also provided as individual JPEG's in high res (300dpi)
- The final e-book is provided as a PDF file.
- Includes 1x round of revisions
